

COWBOYS AIN'T LEGAL

Unlicensed plumbers are breaking the law and using one can lead to all sorts of problems; leaks, contamination, injury and even disease.

Only a licensed plumber can legally carry out water supply, sanitary or drainage work with an automatic six year guarantee on their workmanship.

Ask to see your plumber's current registration card or check their details by calling 08 9282 0478 or online at www.plumbers.wa.gov.au.

Plumbers Licensing Board
